REPORT OF SELECT COMMITTEE.

The Special Committee to whom were referred May 27, 1879, the communications from B. F. Randolph, Judge, and S. M. Chambers, Clerk of First District Court, declining to accept the compensation as fixed by resolution adopted April 29, 1879, presented a report thereon setting forth that the Committee have

had a full hearing with the officials named, who consider that because said Court has paid into the City Treasury during the year a sum sufficient to cover about thirty-five per cent. of the cost no reduction in salaries should be made, notwithstanding the fact that the entire cost of the District Courts is included in the tax levy and must be met by taxation, and further stating that the Committee believe that the Board of Aldermen in reducing salaries were desirous of putting in actual practice necessary reform in reduction of expenses and of affording these officials an opportunity to acquiesce in the good work so fairly begun and so poorly ended, and further stating that when the claims for salaries of these officials are presented they will be referred to appropriate committee for consideration, the report asking that the Committee be discharged.

OFFICERS' COMMUNICATIONS.

The following opinion from the Corporation Counsel was presented, received and ordered filed:

Jersey City, July 15, 1879.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—In reply to your communication in reference to opening streets to the river, I can give you generally, my views, but if you want a particular answer as to each street it will require considerable investigation and will take considerable time to properly answer as to each street. The general rule, however, is that when a shore owner dedicates a street running to the river, that, no matter how much filling up there may be, the street continues to run to the river. This rule has been laid down by the Court of Errors and Appeals in The Hoboken Land Improvement Company vs. The Mayor, &c, of Hoboken, 7 Vroom p. 540, &c. It is still an open question as to what would be the effect of a riparian grant or legislation adverse to such a claim by the public.

The way for the public to ascertain its rights in any such street is through an action of ejectment.

Respectfully submitted,
LEON ABBETT, C. C. of J. C.

OFFICERS' COMMUNICATIONS.

The following opinion from the Corporation Counsel was presented, received and ordered filed:

Jersey City, August 9, 1879.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—The powers of your Board in reference to City Weighers is stated in Section 3 of the supplement to the City Charter of March 24, 1873, as follows:

"3. That the Board of Aldermen shall have power to appoint City Weighers and Measurers and to define their powers, duties and fix their compensation." Under this section your Board passed May 13, 1873, an ordinance entitled "An ordinance regulating the appointment and defining the duties of City Weighers and Measurers," which was approved May 19, 1873. This ordinance provides the mode of appointment and fees of City Weighers and prescribes a penalty for unlicensed parties exercising their duties. My opinion is requested first, as to the right of the city weighers to be defended in suits at law by the legal advisers of the city. Second, as to your power to prohibit weighers and measurers who are not residents of Jersey City and not appointed by your Board from exercising their calling or employment in Jersey City, and third, if such power does not exist what action is necessary to acquire. My opinion is:

First. That a city weigher is not entitled to be defended in suits at law against him when the city is to be affected. Section 32 of the city charter provides that the suit shall be brought against the city in its corporate name, except only as therein provided.

Second. Your power to prohibit weighers and measurers not residents of Jersey City from exercising their calling is I think more than doubtful. The case of Ward vs. Maryland, 12 Wallace, 418, &c., interpreting the clause of the Constitution of the United States which says: That "The citizens of each State shall be entitled to all the privileges and immunities of citizens in the several States," and other leading cases in reference to the regulation of commerce, viz: The Steamship Co. vs. Portwardens, 6 Wallace, 31; Gibbons vs. Ogden, 9 Wheaton, 229; Osborne vs. Mobile, 16 Wallace, 479; Foster vs. Portwardens of N. O., 4 Otto, 246; and Hackle vs. Geraghty, et al;, 5 Vr., 332, all render the claim of our weighmasters to an exclusive exercise of the powers conferred on them by your ordinance of very doubtful validity. There may be some of their powers which are exclusive, but the proper way to deal with these cases is to consider each case as it arises and not to attempt to lay down any arbitrary general rule for all cases. Portions of the ordinance in question may probably be sustained as an inspection law and it would be advisable to try to sustain the entire ordinance for the benefit of our own citizens. The weighmaster can raise the question by prosecuting any party violating Sec. 2 of Title 5 of the weighmasters' ordinance. The Courts would then settle the law as to that particular case. The Supreme Court of New Jersey, in the case of Hoffman vs. Jersey City, 5 Vroom, 172, reviewed the decision of Recorder Martindale, convicting Hoffman of an alleged violation of an ordinance concerning weighmasters and measurers, passed June 21, 1844. The Supreme Court there held that a weighmaster under the old charter and ordinances of Jersey City was an officer appointed for the convenience of commerce and trading, to determine weights and measurements when called upon so to do. The Court also held that a conviction against a person who was employed by the seller to measure plaster as it was taken from a vessel at the dock and delivered on the cars, because as alleged he was exercising the office of Weighmaster with-

out appointment by the Common Council was illegal and the conviction of Hoffman was set aside and reversed.

Third If you have not the power now, you cannot acquire it except by act of the Legislature, and even such an act might be resisted as unconstitutional, although upon this question I do not now express any opinion.

Respectfully submitted,

LEON ABBETT, C. C. of J. C.

A communication from Leon Abbett, Esq., Corporation Counsel, setting forth that in his opinion the Board of Aldermen have not the power to prevent the carting of hoops with nails therein through the streets, but may regulate by ordinance the use of streets by vehicles, and under this power may prescribe any reasonable regulation as to the kind of vehicle that shall be used by parties carting hoops, &c., and advising a reference of the matter to the proper committee for consultation, was presented, received and on motion of Alderman Smith referred to the Committee on Laws and Ordinances.

OFFICERS' COMMUNICATIONS.

The following communication was presented from the Mayor:

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, Sept. 5, 1879.

Honorable Board of Aldermen of Jersey City:

Gentlemen—Your Board adopted two resolutions on the 12th ult. requesting the Street Commissioner to remove a ropewalk from the line of Howell street and directing said officer to cause the removal of shanties, buildings, &c., obstructing streets north of Fifteenth street and in other portions of the city.

I approved of the resolutions, being of the opinion that the streets of this city should not be obstructed or occupied by encumbrances and nuisances of any kind, more particularly by buildings or fast property, such occupancy being a detriment and depreciating to the value of property especially in the neighborhood or on direct frontage. Property has no doubt reached its lowest value and all indications for the future are favorable toward a returning prosperity and demand for real estate; it is therefore only just and equitable to our citizens and real estate owners that the resolutions be carried into effect I have been called upon by several of our prominent citizens to disapprove of one of said resolutions, they representing that it was applied for and passed as an act of vindictiness and malice against one of our citizens. While I disclaim any desire to discriminate against any class or any person I am constrained in favor of the principle as to the removal of obstructions as manifestly proper and necessary.

The parties now occupying these streets certainly must have known that they had no claim or legal right to build there, or remain upon the same after the streets were laid out and property condemned and paid for by or dedicated to the city.

Your resolutions called for immediate action on the part of the Street Commissioner, but taking into consideration that these parties affected by said resolutions have been tolerated or permitted to occupy the streets for a considerable time, it would perhaps in most of the cases be very oppressive and cause considerable sacrifice in a summary removal and enforcing of the resolutions.

I would therefore respectfully suggest to your honorable body that you extend the time for removal, say to January 1st next, requesting the Street Commissioner to notify all parties immediately owning buildings and permanent obstructions that the same should be removed on or before that date, or legal measures will be taken to enforce said resolutions.

Respectfully submitted,

H. J. HOPPER, Mayor.

The following resolution in relation thereto was offered by Alderman Smith and adopted:

Resolved, That in accordance with the recommendation contained in the communication presented at this meeting from His Honor the Mayor, the Street Commissioner is hereby requested to extend the time for removal of all buildings and other permanent obstructions until the first day of January next and that said officer notify all owners or occupants of such obstructions that the following said date legal measures will be taken to enforce the ordinances.
